Senior Analytical Chemist

Humanwell Pharmaceuticals US, St Louis, MO

Interested candidate, please submit resumes to email: hr@humanwellus.com

Summary:

Humanwell Pharmaceutical US is a pharmaceutical company focusing on the research and development of generic and brand drug products. It is a wholly subsidiary company owned by Yichang Humanwell Pharmaceutical Co. LTD, a leading specialty company focusing on anesthetics and pain medicines in China. More than 4000 employees work together to deliver the products to over 20 countries and regions to serve people's health. We are now seeking a Senior Analytical Chemist to join our Research and Development team located in St. Louis, MO to fully support the development of new products.

Primary Duties and Responsibilities:

1. Develop and validate analytical method for raw materials, in-process materials, and finished product.
2. Write and review method development reports and validation protocol/reports for ANDA/NDA submissions.
3. Hands-on experience with HPLC, GC, dissolution tester and good knowledge of general analytical instruments utilized in pharmaceutical industry.
4. Perform accurate and timely sample analysis to support product development.
5. Familiar with cGMPs and FDA/ICH Guidelines related to analytical method development and validation.
6. Possess strong problem solving and trouble shooting skills for analytical methods.
7. Ability to work in a fast paced and timeline driven environment without compromising data integrity.
8. Document all laboratory testing and maintain accurate and legible notebooks and records.
9. Peer review of data, protocol, report and laboratory notebook.
10. Adherence to all health, safety, and environmental requirements
11. Assist in maintaining laboratory instruments and facilities.
12. Intensive and extensive bench work may be required.
